Mobile Number: 44 2343 5767

Telephone Number: 012345 86958

Career Objective

With over three years of experience as a biomedical researcher, I am seeking to augment my knowledge in this field by working in a more challenging environment. I am well versed in various research techniques and methods. I have both conducted as well as supervised extensive research. I have demonstrated excellent leadership qualities and possess great interpersonal skills. I am a meticulous worker and am known for researching even the smallest detail.

Educational Background

Master of Science, Biomedical engineering, 2006

Bachelor of Science, Biomedical Engineering, 2004

Work Experience

2008-Present: Biomedical Researcher, Kingston Biomedics

Responsibilities

- Recruited and supervised 5 research assistants
- Trained research assistants in various techniques of biomedical research
- Prepared white papers, research reports related to cancer research
- Defined new standards for research related to cancer
- Ensured definite results were achieved and targets were met
- Documentation of research results

2006-2007: Biomedical research assistant, Kingston Biomedics

Responsibilities

- Worked on cell biology, molecular biology, biomaterials and cell mechanics

- Assisted in lab management
- Assisted in cancer research
- Accountable for maintaining hygiene standards in lab

Skills

- Excellent researching abilities
- Excellent documentation skills
- Excellent interpersonal skills
- Demonstrated leadership skills
- Bilingual in Spanish and English

Achievements

- Wrote various white papers and research documents on cancer research
- Set new standards for research on cancer
