**Career Objective:** Seeking the job of Technical Consultant that can utilize my technical skills and provide mutual benefit and growth.

**Professional Experience:**

**2008 – 2009: Horn Software Solutions, Colorado**

I have worked as technical consultant with Horn Software solutions, Colorado. My job involved interacting with clients to understand their needs and suggest proper technical solution. I also coordinated with IT team to implement the suggested solution.

**2006 – 2008: Bill IT Consultants, Colorado**

I have worked with Bill IT Consultants, Colorado as IT consultant. My responsibilities included requirement gathering from the client, advising proper software solutions and coordinating with client staff for training on new technical tools.

**Qualifications:**

2005– 2006: Master of Computer Science, University of California, California

2002– 2005: Bachelor of Computer Science, University of Glendale, Georgia

**Achievement:**

I have been given certificate of appreciation by Bill IT Consultants for implementing a very challenging technical solution that improved client productivity by 40%.

**Hobbies:**

- Reading ,Writing
- Golf
